of MILWAUKEE IRON

**Randy Simpson  
with  
Gary Woodford**

Gary was born in central Virginia in the early 50's. His family noted early on that he had a natural talent for mechanics. The start of his fancy for motorcycles was when his older brother brought home a small Honda. That led to his fascination with motorcycles and later led to a job with a local Honda shop when he was just sixteen. While there he bought his first bike - a 350 Honda. By the mid 70's to mid 80's, Gary worked at the local Harley shop. While he was there he met Randy Simpson.

The rest, as they say, is HISTORY!
